

## Term 3 in Year 3H

This term in Religious Education, we have been exploring Jesus' real presence with us when we participate and share in the celebration of the Eucharist. We reflected on the story of The Last Supper, how we are challenged to serve others and ways we have prepared to receive our First and subsequent Communion.

**In Maths we have been learning about volume by making 3D shapes, taking photos and then drawing them on dot paper.**

**STEM Challenge on Grandparent's Day**
