

Yippee! Lots of great learning in term 3!

What a blast Year 5 had on their first overnight excursion to Bathurst! It was full of history, tours and exciting experiences. Plenty of memories to be shared!

ENGLISH: This term we've been busy writing speeches, biographies, factual descriptions and preparing countless presentations. What a joy it has been to witness the growth and development of students in this short period of time!

NETBALL: Wow what an exciting opportunity to be coached by a netball player from the Giants. Lots of fun and challenging activities, competitive games and laughter heard.

SCIENCE: Students have been learning about various sources of energy such as: solar, wind, nuclear and fossil fuel. We have also explored the generation and movement of electricity and energy including an investigation of electrical circuits.
