

YEAR 6

A COMMUNITY OF CREATIVE LEARNERS

Bathurst excursion

Finding gold in the goldfields was so much fun and it was great to learn about living in colonial days. Zac

It was great to learn about life on the goldfields and it felt like we were living there. Julia

Science and Technology

We have been investigating how electricity works and it has been very interesting. Chloe M

We have learnt about the process of creating electricity and discussed the need for renewable energy. We have developed our understanding of a simple electricity circuit through hands-on experience.

Notables was a great night to showcase our learning around notable people who have influenced many people. Our students showed exceptional skills at researching their notable and sharing this information with family and friends.
